Visions

- Social encouragement for business culture.
- Helping entrepreneurs by providing **working capital** for **business startups**.
- Free of cost marketing for business startups.

System

Oroo Finance, a system and opportunity for every person who willing to start his business but fails due to lack of working capital and lack of support from industry tycoons. Oroo ecosystem connects the both and they can share his money, tools, information and much more with each others.

Working fields and competitors

01.

Finance

Foreign companies are making profits very fast with technology and ideas, They are investing in indian business startups and ideas. Now, we can lose the control from business system like the history of East India company.

02.

Investments

Investment options are many but money security and long term benefits are few. Inflation rate is always higher than investment opportunity and some investment opportunities are very risky.

03.

Marketing

Oroo finance is an option for your financial security and a helping hand for entrepreneurs. Entrepreneurs can take working capital for their business idea and investor can multiply his money very fast. Oroo finance also provides the very effective marketing platform for business owners, they can share their idea on Oroo's website.
